

Company Name: ON TRACK TECHNOLOGY

Sector: Low Current Systems – Security & Technology

About Us

ON TRACK is a company specialized in providing integrated solutions in the field of low current systems and smart security technologies since 2022. It was established to meet the growing demand in the Egyptian market for advanced surveillance, protection, and smart control systems.

Our Vision

To be the first choice in Egypt for smart security and technology solutions.

Our Mission

To deliver high-quality services based on the latest technologies at competitive prices, ensuring customer satisfaction throughout every project phase.

Our Services

- CCTV Surveillance Systems: Supply, installation, and maintenance of all types of indoor and outdoor cameras
- Intrusion Alarm Systems: Wired and wireless alarm systems with modern communication technologies
- Access Control & Time Attendance Systems: Fingerprint and card-based systems integrated with payroll solutions
- Fire Alarm Systems: Certified systems compliant with civil defense requirements
- Smart Home Automation: Full control over lighting, AC, curtains, and audio systems
- Public Address & Audio Systems: Complete sound solutions for offices, schools, and buildings
- Telephone & IP PBX Systems: Programming and installation of telephony systems for businesses
- Central Satellite Systems: Design and implementation of shared satellite systems for large buildings

- X-Ray Inspection Systems: Supply and installation of high-performance X-Ray baggage scanners for airports, government buildings, and private facilities – ensuring maximum security and threat detection
